NOTE: For new ad(s) to be designed by Advertising In Print, due dates for ad components and final ad approval will be advised.

PREPARING YOUR AD FILE FOR PRINT

Please follow the guidelines below when creating your ad

SIZE & BLEED:

Non-Bleed Ad: Must be supplied with a border all around the ad.

Bleed Ad: Build ad to trim size plus 1/4" bleed allowance beyond trim on all sides. Trim allowance will be trimmed off allowing the ad to run to the edge of the magazine. Keep all important contents (texts/logos) within the live area (1/4" away from the trim edge). Please supply file with crop marks at trim size. **See Bleed Ad Guides for assistance.**

IMAGE RESOLUTION:

- » Resolution of images should be 300 ppi or higher for good print quality.
- » Low resolution images will result in blurry and pixelated images.

COLOUR MODE & COLOUR SPACE:

- » **Colour Ad:** All images, graphics and texts must be in CMYK only. Convert all RGB (for web use only) or spot/pantone (PMS) colours to CMYK.

ACCEPTABLE FILE FORMATS:

- » High resolution PDF with crop marks and all fonts embedded/outlined.

TIP When exporting/saving to PDF, select the **Adobe PDF Preset [PDF/X-1a:2001]**. It prepares the file to commercial print standards.

E-PROOFS:

Our production department will check your ad and provide an e-proof if there are no issues. Please verify that the ad is the correct file for print and no content is missing. Please reply to your account rep to confirm file is ok.

PRODUCTION CHARGES:

If the Advertising Material supplied does not conform to criteria listed above, the Advertiser may incur production charges over and above advertising space rates. Any such charges will be advised and billed by CPABC in Focus.
