Please note:

- Effective January 1, 2015 a minimum grade of 50% is required for CPA PREP modules 1–4, 11, and 12. A minimum grade of 60% is required for all other courses. Please be aware, a 65% overall average is required for entry into PEP. Until January 1, 2017, two standards for calculating that 65% overall average apply and the standard that is most advantageous to the student will apply - for more information on the two standards see [HEP policy 1.1](#).
- Unless otherwise noted, all of the required courses for each module must be completed for exemption.
- A single course may appear against more than one module in cases where it covers competencies across multiple content areas.
- All required courses for each module exemption, with the exception of those equivalent to Modules 1-4, must have been completed within ten years of enrollment into CPA PEP.

- While all required courses/modules must still be completed for enrollment into CPA PEP, effective July 1, 2015 only one of Modules 5.1, 5.2 and 5.3 must have been completed within ten years of enrollment.

Legacy Program Courses:

Until June 2017, legacy CGA, CMA, and CA courses will be accepted for entry into the CPA PEP. For students who are completing courses required for entry into the CA, CGA, or CMA professional programs, these courses will be accepted for entry into the CPA PEP. Students must meet the prerequisite course requirements of only one of the CMA, CA, or CGA pathways to be accepted for entry into the CPA PEP; students will not be allowed to combine courses from the CGA, CMA, or CA pathways. If a legacy track is applied, the minimum grading requirements for that legacy track will apply.

Students who have completed either the CA, CGA, or CMA prerequisite courses will be eligible to register for the CPA PEP upon completion of their respective pathway's Module Zero. Please contact CPA Western School of Business for further information. www.cpasb.ca.
